Looking for a fun and productive way to give back to your community?

As a mentor, you'll form a one-on-one relationship with a high school student and support their development. You'll be a positive role model and a trusted friend. **As a tutor**, you'll work under a teacher's supervision (at the grade level you choose, K-12) helping young people experience success in learning.

Do you have an hour a week to share?

That's all it takes! You volunteer to spend an hour a week with your student, or more if you prefer, in a school or community-based setting. You choose a time that is convenient for you. **Choices are available to mentor high school students and/or tutor students in elementary through high school.**

Partners for New Generations is a 15 year old organization serving youth residing in Los Altos and Mountain View. PNG programs create and support friendships between youth in need and caring adults.
